Hi Rick,

Yes, you can use the image. Actually I am glad to know that in some way I am helping your important education project.

Best wishes

Hello,

I am an educator, and have developed some free software to aid in the instruction of animal classification, "Animal I-Class". This software is distributed for free to teachers and students.

I am currently upgrading the software with more images, and found some on a website (<http://www.earthlife.net/inverts/hirundinae.html>) that I am interested in incorporating into the software.

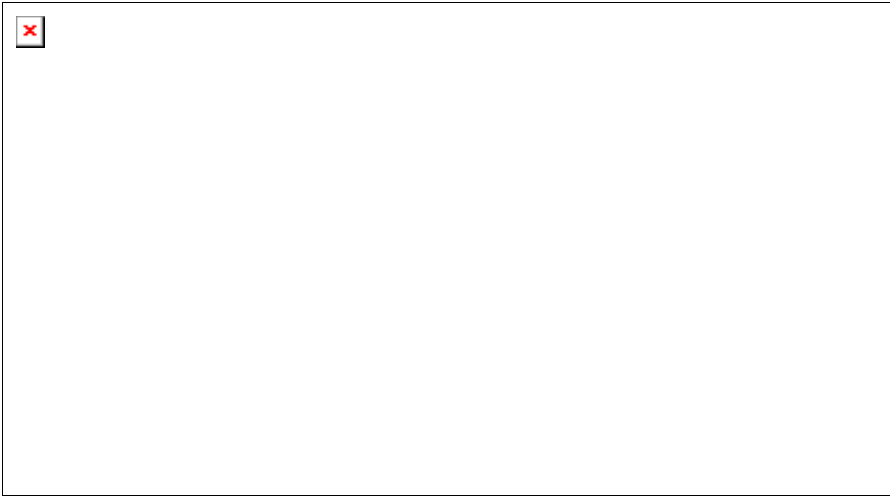

Is this one of your images, and I use the image in this free educational software?:

Additionally, may I use those same images in the Web version of this software, which can be viewed at www.scenicoregon.com/webanic/play.html?

Thank you for your time and consideration in this matter.
