Dear Rick

We would be happy to allow you to use the coelacanth image you requested as long as the image is not used for any other purpose other than what you have described below. If the picture will be used for another purpose (now or in the future) please contact me again.

I have attached a jpeg with Mark's name burned onto the photo for you to use. Would it be possible for us to receive a copy of this software when it is completed? We would love to have one for our family library.

By the way, DO NOT HIT REPLY to this e-mail as I cannot download messages from this server at the moment. Please reply to <arnazseacology@yahoo.com>

Best,  
Arnaz Mehta

Arnie,  
Please respond to this fellow as you like. I don't see a big problem with this, though it should only be a low res picture he has access to, and perhaps a labelled one at that. I'm attaching one of these in case you want to send it directly.

Love,  
Mark

Hello,

I am an educator, and have developed some free software to aid in the instruction of animal classification, "Animal I-Class". This software is distributed for free to teachers and students.

I am currently upgrading the software with more images, and found one on a website ([http://www.calacademy.org/science\\_now/archive/headline\\_science/coelacanth\\_010601.html](http://www.calacademy.org/science_now/archive/headline_science/coelacanth_010601.html)) that I am interested in incorporating into the software.

May I use the following images in this free educational software?:

**diver and coelacanth**

Additionally, may I use those same images in the Web version of this software, which can be viewed at [www.scenicoregon.com/webanic/play.html](http://www.scenicoregon.com/webanic/play.html)?

Thank you for your time and consideration in this matter.  
Rick Bures
